

# INJECTORS

## REMAN PCR/6.4L

POWER | RELIABILITY | EFFICIENCY

### QUALITY AND TESTING

- ✓ All reman assembly and production testing conducted on OE manufactured equipment.
- ✓ Assembled in a certified 100,000 clean room free from debris, using original process and equipment.
- ✓ Proprietary algorithm to set the opening clearances correctly.
- ✓ Advanced end-of-line test checks, delivery, leakage and opening characteristics.

### TECHNICAL ADVANTAGES

- ✓ All reman actuators certified to manufacturer performance specifications.
- ✓ Sets all actuators to operate in all environmental engine conditions.
- ✓ Replaces 100% of throttle body with new parts and resetting spill flow to ensure correct pressure control with minimal losses.
- ✓ Rehone of injector body bore to restore original match clearance.
- ✓ 100% performance testing of nozzles for flow, leakage and needle lift.

# FEATURES and APPLICATIONS

## UNSURPASSED VALUE

**PurePower Technologies is the leader in engineering and remanufacturing of diesel fuel injectors and turbos for OEMs and the aftermarket, having produced more than 30 million precision diesel fuel injectors since 1999. PPT offers assembly, remanufacturing and 100 percent end-of-line testing for high-quality injectors for light and medium diesel truck engines.**
